

Single String Element Manipulation

back to [Fan's Reusable Matlab Repository](#) or [Dynamic Asset Repository](#).

Change File Name MLX to M

```
st_file_name_mlx = 'continuous_differentiable.mlx';  
at_st_split_file_name = split(st_file_name_mlx, ".");  
st_file_name_m = strcat(at_st_split_file_name{1}, '_m.m');  
disp(st_file_name_m);
```

continuous_differentiable_m.m
