Single String Element Manipulation

back to Fan's Reusable Matlab Repository or Dynamic Asset Repository.

Change File Name MLX to M

```matlab
st_file_name_mlx = 'continuous_differentiable.mlx';
at_st_split_file_name = split(st_file_name_mlx, ".");
st_file_name_m = strcat(at_st_split_file_name{1}, '_m.m');
disp(st_file_name_m);
```

continuous_differentiable_m.m
